# Agenda for the day

- ✓ The UJA Initiative
- ✓ The 1st Call for Proposals for UJA
- ✓ Application Form

# Who is in the room?

# Introduction to the UJA Initiative

# Main objectives

**Art.8 ERDF:** “... *To identify and test new solutions which address issues related to sustainable urban development and are of relevance at Union level.*”

- To provide urban authorities with resources to test how new and unproven solutions work in practice and how they respond to the complexity of real life
- To draw lessons and share knowledge with other urban authorities across Europe

# Key figures

- UIA budget: EUR 372 Mio ERDF
- Co-financing per project: max. EUR 5 Mio ERDF
- Co-financing rate: max. 80%
- Project duration: max. 3 years

# Main features of UIA projects

## Requirements:

- Be related to sustainable urban development
- Be of relevance at Union level
- Support the thematic objectives and investment priorities for ERDF

## Characteristics:

- **Innovative:** *To what extent the project proposal is a new solution that has the clear potential to add value?*
- **Of good quality:** *To what extent is the work plan realistic, consistent and coherent? To what extent is the budget coherent and proportionate?*
- **Built and delivered in partnership:** *To what extent is the involvement of key stakeholders relevant for the implementation of the project?*
- **With measurable results:** *To what extent will the project deliver measurable results?*
- **Transferable:** *To what extent will the project be transferable to other urban areas across Europe?*

# UIA Experts

- UIA Expert to provide approved project with:
  - Advice and guidance on the substance of the action, especially regarding the innovative content
  - Assistance in the development of documentation and outputs that will capture and disseminate lessons learnt, good practice, etc. to the wide audience
  - Support to ensure that the action remains on track and is in line with the agreed proposal
- Selected through Calls for Applications (linked to the Call for Proposals)
- In depth expertise on the selected topics and urban innovation
- Allocated to approved projects by the Permanent Secretariat

# Questions & Answers

# The 1<sup>st</sup> Call for Proposals for UIA

# UIA – TOPICS OF THE 1<sup>ST</sup> CALL

- UIA will seek to operate within the framework of the 12 EU Urban Agenda topics
- Topics will be covered on a rolling basis i.e. a few topics per call
- Allows for more strategic choices, the avoidance of overlaps and a more focussed approach. New knowledge is the driving force.
- 1<sup>st</sup> Call – 4 topics
- Description of the topics selected for each Call detailed in specific Terms of Reference

# 1st Call for Proposals: 4 topics

1. Urban poverty – with a focus on deprived neighborhoods
2. Integration of migrants and refugees
3. Jobs and skills in local economy
4. Energy transition

# URBAN POVERTY – WITH A FOCUS ON DEPRIVED NEIGHBOURHOODS

- Key aim of the Europe 2020 strategy
- Economic crisis exacerbated the problem – every 4<sup>th</sup> European is at risk of poverty or social exclusion
- One of the key challenges identified by stakeholders in the EU Urban Agenda consultation
- A complex problem with multiple factors to consider – unemployment, health, education, spatial segregation etc.
- Projects sought that propose innovative solutions in relation to the interconnectedness of the major causal factors of urban poverty

# Integration of migrants and refugees

- The pressing issue in the EU at the moment – cities are at the forefront of the situation
- An issue that will grow in importance in the future
- Migration policy dependent upon effective inclusion measures – poor management of this issue can lead to major problems
- Important impacts on social and health infrastructure, labour market, education, deprived urban areas, housing etc.
- Projects sought that propose innovative solutions to the medium-long term integration of migrants and refugees into the urban fabric

# Energy transition

- Shift from a system dominated by finite energy towards a system using a majority of renewable energy sources
- One of the key objectives of EU energy and climate policy - beneficial for security of supply, sustainability, affordability and competitiveness of the EU economy
- Cities are central - 60 to 80% of global energy consumption
- Topic encompasses technological, societal, cultural, economic and environmental aspects
- Large scope for possible innovation - production of renewable energy at local level; retrofitting of buildings; measures to tackle fuel poverty; low carbon technology; smart energy management etc.

- Job creation one of the key issues in our consultation on the EU Urban Agenda
- 22.6 million people in the EU were unemployed as of September 2015
- Cities have a key role - more than two-thirds of the EU's workforce live in cities and they are the drivers for innovation, competitiveness and economic growth
- Topic has been kept broad to ensure flexibility in types of projects proposed
- Large scope for possible innovation: strengthening local supply chains; connecting SMEs to wider markets; creating an entrepreneurial culture; fostering job-rich sectors; matching labour-market need; stimulating skills demands etc.

# Application Process

- Call for Proposals:
  - ✓ **Launched: 15/12/2015**

# Strategic assessment

Carried out by the Panel of External Experts:

- Composed of around 20 experts
- With in-depth knowledge on the 4 topics and proven track record in assessing urban innovative projects
- Recruited through Call for Applications (currently open)
- Four eye approach

Focus on 4 selection criteria:

- Innovativeness (40%)
- Partnership (15%)
- Measurability of results (15%)
- Transferability (10%)

- **Innovativeness (40%)**
  - Solutions proposed have not been tested previously tested and implemented
  - Potential of new solutions to add value
  - Evidence of research into existing best practices
  - Description of obstacles/resistance to innovation and potential solutions
  - Links to existing policies and practices
  
- **Partnership (15%)**
  - Key stakeholders involved in the design and implementation of the project
  - Group of Delivery Partners is balanced and complementary
  - Delivery partners have relevant experience and necessary capacity

- **Measurability of results (15%)**
  - Expected results properly described and quantified
  - Outputs, results and target groups clearly relevant to the urban challenge addressed
  - Methodology for measuring results able to isolate changes attributable to project activities and discount external factors
  
- **Transferability and scaling up (10%)**
  - Relevance of the proposal (challenge and solution) for other urban authorities in EU
  - Clear evidence project can be applicable and replicable by other urban authorities
  - Clear explanation of how project will be scaled up, if successful

# Operational Assessment

Carried out by the Permanent Secretariat

- **Quality (20%)**
  - How well is a need for the project justified?
  - To what extent is the work plan realistic, consistent and coherent?
  - To what extent are management structures and procedures in line with the project size, duration and needs?
  - To what extent does the project budget demonstrate value for money
  - To what extent is the budget coherent and proportionate?
  - To what extent are the communication activities proportionate and forceful to reach relevant target groups and stakeholders and help achieve the project activities

Additionally:

- Projects must still comply with EU, national and organisation rules
- Expenses must relate to activities listed in the AF
- Costs in line with the principles of efficiency, economy and effectiveness
- Expenses invoiced between partners are not eligible
- Revenues generated by project activities must be reimbursed

# Eligibility rules - Eligibility period

## Eligibility period

- Lump sums:
  - Preparation: EUR 20 000 TEC (EUR 16 000 ERDF)
  - Closure & knowledge transfer: EUR 15 000 TEC (EUR 12 000 ERDF)
- Real costs:
  - Implementation

# Eligibility period - Budget lines

- Staff
  - Office and administration
  - Travel and accommodation
  - External expertise and services
  - Equipment
  - Infrastructure and construction works
- 
- For each budget line: definition, principles and audit trail are provided in the UIA guidance
  - Focus on definition and principles in the current presentation

# Budget lines - Staff

***Gross employment costs of persons employed directly by the partner organisation and working full or part time on the project in line with their respective employment contracts***

2 options:

- Real costs
  - 20% flat rate of all direct costs but staff
- 
- Only one option per partner organization for the whole duration of the project
  - Option selected in the application form

# (1) Staff – real costs

## Calculation

$$\begin{array}{c}
 \textbf{Gross employment costs} \\
 \text{(incl. other costs linked to salary such as pension, health...)} \\
 \textbf{X} \\
 \textbf{\% of time worked on the project}
 \end{array}$$

- Calculated per staff member
- Based on costs actually paid out (no unpaid voluntary work)
- % of time based on written assignment of the employer (no timesheets!)
  - Description of main tasks and outputs related to project activities
  - Duration of the assignment

## (2) Staff – flat rate

### Calculation

$$\begin{array}{c}
 20\% \\
 \times \\
 \text{Partner's direct costs} \\
 \text{(other than staff costs)}
 \end{array}$$

- Direct costs based on:
  - Travel and accommodation
  - External expertise and services costs
  - Equipment
  - Infrastructure and construction works
- Relevant for partners with low staff budget
- No audit trail

# Office and administration

***It covers the operating and administrative expenses of partners and includes: office rent, utilities, office supplies, general accounting, archives, maintenance, repair and cleaning, security, IT systems of general nature, communication, bank charges***

## Calculation

$$\begin{array}{c}
 15\% \\
 \times \\
 \text{Partner' staff costs}
 \end{array}$$

- The list is exhaustive
- Listed items cannot be claimed under any other budget line
- No audit trail

# Travel and accommodation

***T&A costs of partners' employees that relate to project activities. It includes: travel (e.g. tickets, travel and car insurance, fuel, car mileage, toll and parking fees), meals, accommodation, visa and daily allowances***
