¹ The First Level Control is responsible for ensuring that the expenditure declared by the beneficiaries (Project Partners) complies with the Initiative, EU, national and partner rules. The main aim of these controls is to provide a guarantee that costs co-financed under the Initiative are accounted for and eligible. Currently the First Level Control is centralised and sub-contracted to a private company directly managed by the Permanent Secretariat. The Second Level Control is responsible for carrying out regular system audits and yearly audit of projects on the basis of an appropriate sample (10% of reported project expenses). The purpose of these checks is to ensure that no mistakes are made in the accounting records at the level of projects and, on that basis, to obtain an overall picture of whether the management and control procedures set up at Initiative level are being applied. Currently the Second Level Control is centralised and externalised to another private company directly managed by the Permanent Secretariat.

- Advice on eligibility of expenditure and reporting to projects and Initiative staff
- Organisation and participation to seminars on finance and control
- Assistance in the coordination and exchange with other programmes and networks
- Maintenance of professional and technical knowledge by attending educational workshops, reviewing professional publications and content, and participating in professional networks

5. Additional tasks

- Management of a small portfolio of projects under the supervision of other units: project management, monitoring and contractual set-up
- Monitoring system (IT): participation in the design and maintenance of the financial reporting (projects, capacity building and knowledge & communication) and setup of finance related statistics
- Other additional tasks of relevance to the position if required

Basic Requirements

THE INITIATIVE

1. Background

One of the aims for the delivery of the European Structural and Investment Funds (ESI Funds) for the period 2014-2020 is to promote sustainable urban development. In particular, the European Regional Development Fund (ERDF) may support innovative actions in this area. The Urban Innovative Actions Initiative has been set up to identify and test innovative new solutions to the many challenges faced by urban areas in Europe and draw lessons and share the knowledge captured from the experiments with other urban authorities across Europe. For the period 2021-2027, the urban dimension of Cohesion policy has been strengthened. The new Policy Objective 'a Europe closer to Citizens' has been introduced to the main policy framework as an enhanced commitment to integrated territorial development and includes a specific objective to foster sustainable urban development. The Pact of Amsterdam, signed in 2016, launched the Urban Agenda for the EU in the frame of intergovernmental cooperation on urban matters. The New Leipzig Charter adopted in November 2020 puts forward a revised vision for sustainable urban development in Europe. In this context the Cohesion policy legislative package for 2021-2027 includes the establishment of a European Urban Initiative (EUI).

2. The UIA & EUI Initiatives

The Urban Innovative Actions initiative has a budget of € 372 million for the period 2014-2020. Projects were selected through calls for proposals for urban areas representing more than a 50 000 population. The ERDF contribution is up to € 5 million per project and 80% of the project budget. In general, the project duration is 3 years, with call topics defined by the European Commission for each call. Projects were selected against the following criteria: the level of innovativeness, quality, partnership, measurability of results, and transferability at the EU level. A Knowledge Management Strategy is delivering thematic capitalisation, operational knowledge – capacity building and transfer activities.

For the period 2021-2027, a new European Urban Initiative (EUI) will be set-up, to support cities with innovative actions, capacity and knowledge building, policy development and communication on sustainable urban development.

The overall objectives of the EUI are to strengthen integrated and participatory approaches to sustainable urban development, and to provide a stronger link to EU policies, and in particular to Cohesion policy and investments in urban areas as part of the funding earmarked for these areas under Article 11 of the ERDF/CF Regulation and beyond. The initiative aims to offer coherent support to cities to overcome the current landscape of manifold initiatives, programmes and instruments in support of cities under Cohesion policy, and in particular, by maximising synergy and complementarity with the interregional cooperation programme URBACT IV. The EUI will also support the multi-level working of the Urban Agenda for the EU and intergovernmental cooperation on urban matters.

THE ROLE OF THE SECRETARIAT

The Entrusted Entity of the Initiative is the Région Hauts-de-France based in Lille. The Permanent Secretariat assists the Entrusted Entity in the implementation of its tasks and responsibilities and acts as the first entry point for all urban authorities and stakeholders involved in the Initiative activities.
